

दिल्ली प्रौद्योगिकी विश्वविद्यालय DELHI TECHNOLOGICAL UNIVERSITY

Established by Govt. of Delhi vide Act 6 of 2009

(Formerly Delhi College of Engineering)

Prof. Prateek Sharma
Vice-Chancellor

Message

It gives me immense pleasure to announce that Delhi Technological University is commencing Ph.D. admissions for the Session: August, 2026.

Delhi Technological University is globally known for outstanding education, research and innovations. The University currently offers various interdisciplinary and industry relevant programmes in science, technology, management and allied areas at undergraduate, post-graduate and doctoral levels.

Students admitted to DTU, through their dedication, discipline and steadfastness can go on to become professionals and impactful leaders. DTU provides them with an environment to shape their talent as DTU ensures that every step of a student's journey is designed keeping in mind holistic development. This is coupled with a diverse range of extra-curricular activities throughout the year, which help students develop various skills to facilitate them throughout their lives.

Over the years, DTU has established itself as the University of unshakable reputation. Hence, getting admission to DTU has reached great heights on the national and international stages and continues to make us proud. The Conjoined efforts of relentless students, faculty, administration and the staff have preserved an exceptional environment in DTU that allows persistent exchange of information and upholds the unmatched excellence associated with this University for eight decades.

We aim to nurture the students holistically and endeavour to foster a culture in which virtues and skills are instilled in them, along with a concern for society and its well-being.

I send my best wishes to the candidates applying for admission to the Delhi Technological University.

(Prof. Prateek Sharma)

About **DELHI TECHNOLOGICAL UNIVERSITY**

Delhi Technological University has been a beacon of academic excellence and innovation for the past 85 years. The university has garnered recognition for being an eminent institution, known for its academic research and entrepreneurial excellence in many fields. Delhi Technological University has adopted the principles of knowledge, critical thinking, creativity, and innovation at the core of its education policy, all while embracing integration, access, and inclusivity. With an aim to provide a holistic education, conventional classroom teaching has been merged with innovative methods, fostering curiosity and academic prowess in our students. From its inception as Delhi Polytechnic to its present-day identity as Delhi Technological University, the university has always championed the cause of providing students with a high-quality education that allows them to flourish in their chosen domains. Along with imparting knowledge, the University has achieved pioneering advances in undertaking creative and internationally relevant research and innovation over the years.

With 85 years of its long-established tradition of excellence in engineering & technology education, research and innovations, Delhi College of Engineering, (initially established with the name – Delhi Polytechnic) came into existence in the year 1941 to cater the needs of Indian industries for trained technical manpower with practical experience and sound theoretical knowledge. The institution was set up at the historic Kashmere Gate campus as a follow-up to the Wood and Abott Committee of 1938. It comprised a multi-disciplinary and multi-level institution offering wide-ranging programmes in engineering, technology, arts and sculpture, architecture, pharmacy, and commerce. In 1952, the college was affiliated with the University of Delhi and started formal degree-level Programmes. The department of Architecture later became the School of Planning and Architecture (SPA), now a Deemed University

and Institution of National importance. The department of Arts and Sculpture became the College of Arts, and the departments of Chemical Technology and Textile Technology were shifted to mark the beginning of the IIT Delhi at its new campus at Hauz Khas. Further expanding its academic reach, the Department of Pharmacy evolved into the College of Pharmacy under the Directorate of Training and Technical Education, Delhi. The Department of Commerce was later abolished, and the Faculty of Management Studies of the University of Delhi was established. Delhi College of Engineering is thus the mother institution of several national projects, including IITD, SPA, College of Arts, and even the famous FMS.

After the reconstitution of the Delhi College of Engineering by the Government of NCT of Delhi in 2009, by Act 6 of 2009, passed by the assembly of the NCT of Delhi, DCE became Delhi Technological University. It is a non-affiliating, teaching, and research University, committed to achieving excellence in Engineering, Science, Technology, Management, and allied areas. Over its rich history of over 85 years, the institution has been serving the nation and the global community since its inception in 1941, by providing trained manpower of the highest quality in the field of engineering and technology, and is globally well known for its outstanding education, research, and innovations.

DTU remains committed to cultivating a culture where scientific research fuels technological advancement and technological ingenuity enriches scientific exploration so that science and engineering seamlessly converge. The University is dedicated to nurturing innovation by promoting industrially relevant projects, technology incubation, and research-driven education with the help of a dedicated Incubation and Innovation Foundation. With a strategic focus on cutting-edge research and development, DTU continues to expand its footprint in
